

PORT DOUGLAS EXPERIENCES

Experience Nature's Finest with Australia's Best

**PORT DOUGLAS EXPERIENCES
CONFERENCE & INCENTIVES**

Cairns | Port Douglas | Great Barrier Reef | Australia
quicksilvergroup.com.au | reefevents.com.au

When it comes to motivating your delegates and high achievers, there's no better inspiration than nature itself.

With Port Douglas, Cairns and Green Island based operations, the Quicksilver Group can offer creative solutions for your conference and incentive group - from pre and post tour options, teambuilding with a difference through to a beautiful tropical island beach dinner or evening sunset cruise on one of our many vessels.

From PORT DOUGLAS

- Quicksilver's flagship Outer Reef Cruises to Agincourt Reef
- Wavedancer Low Isles Sailing Cruises
- Silversonic Dive & Snorkel Adventures
- Poseidon Outer Reef Cruises

From CAIRNS

- Great Adventures Reef and Green Island Cruises
- Ocean Spirit Michaelmas Cay Sailing Cruises
- Silverswift Dive and Snorkel Adventures
- The boutique eco Green Island Resort.

Outer Reef Activity Platform Agincourt Reef Quicksilver

Travel by wavepiercer to the edge of Australia's Continental Shelf with this iconic reef experience! Your Quicksilver journey takes you to a spacious activity platform at the renowned Agincourt Reef, a jewel-like ribbon reef showcasing spectacular coral formations, colourful marine life and exceptional underwater visibility.

There's something for everyone, swimmers and

non-swimmers alike. Choose to dive and snorkel or stay dry and observe. Cruise in the semi-sub and be mesmerised from the underwater observatory as colourful fish dart and play in beautiful coral gardens. There's introductory and certified diving, helmet diving, marine biologist snorkel tours and for a totally different perspective, scenic helicopter flights too.

Maximum 434 passengers

Luxury Sailing to Low Isles Wavedancer

With the excitement and romance of sailing combined with the ultimate in comfort, the beautiful 30 metre catamaran, Wavedancer, sets sail to Low Isles, an idyllic unspoilt Great Barrier Reef island – an exhilarating one hour journey from Port Douglas. Enjoy snorkelling and exploring the island with a marine biologist, view the corals through a glass bottom boat, laze on the

beach under thatched umbrellas, or on the decks of Wavedancer. Perfect for island relaxation and a leisurely day on the Great Barrier Reef. Wavedancer remains moored in the island's calm lagoon and a regular shuttle takes you between the vessel and beach throughout the day.

Maximum 150 passengers

Dive & Snorkel Adventures Silversonic

With small, active incentive groups in mind, Silversonic is our adventure dive and snorkel catamaran based out of Port Douglas (and identical sistership to Silverswift from Cairns).

You'll be whisked away to experience 5 hours at 3 different and stunning reef sites at the renowned Agincourt ribbon reefs, one of the most spectacular

reef systems in the entire Great Barrier Reef.

An added bonus, Silversonic has one of the few permits available that enable our guests to swim with the dwarf minke whales if encountered during whale season.

Maximum 90 passengers

Dive & Snorkel Adventures Poseidon

Poseidon offers an exciting boutique adventure, perfect for small groups of experienced divers and confident snorkellers.

With access to exclusive remote reef sites, expert marine interpretation and citizen science, Poseidon visits 3 different sites in one day at the stunning Agincourt ribbon reefs.

There's marine biologist interpretation at each site, and snorkellers have the opportunity to participate in a monitoring survey.

Poseidon also has a special permit for guests to swim with dwarf minke whales if encountered.

Maximum 65 passengers

Rapid Monitoring Survey

CSR Activity for Groups

Give back and have your delegates contribute to Great Barrier Reef Marine Park data.

The Great Barrier Marine Park Authority has developed an **Eye on the Reef Rapid Monitoring Survey** that enables anyone who visits the Great Barrier Reef to contribute to its long-term protection by collecting valuable information about reef health, marine animals and incidents that is used to understand the bigger picture and inform how we manage the Reef.

Who can participate?

The Eye on the Reef Rapid Monitoring Survey is designed for people with little to moderate reef experience who can either snorkel confidently or dive.

It enables reef users to record what they see on the Reef and report that data to the Reef Authority. The survey can be completed in a short time, and the underwater slate is easy to use, especially for people who may not have a scientific background.

The Quicksilver Group have a large team of Marine Biologists (Reef Biosearch) and Master Reef Guides who are certified to lead this activity and all of the data collected will be used to manage and support the resilience of the Great Barrier Reef.

Rapid Monitoring Survey for Groups

Min-Max Delegates: 20-150 pax
10 delegates per 1 marine biologist

Activity duration: 30 mins

Available on all Quicksilver Group cruises.

Enquire with the Business Events Team.
